December 31st, 1962.

Dear Mario and Marta,

Very many thanks for your congratulations, and our very best wishes for 1963.

Dear Mario, I wonder whether the American Consul who has misinformed you has not made some further mistake.

To my knowledge, an exchange visitor who gets an exchange visitor's visa can accept a new invitation as an exchange visitor as soon as he likes: there is no waiting time between one such invitation and the next. This, at least, is the information I have obtained. It is different with immigration visas. I don't know whether this information will be of any help, but perhaps it may.

Our very best wishes

Karl and Hermie,

P.S. You write in your P.S: 'Thanks for keeping the Bibliography up to date. I shall have to bother you with this until the last galleys are corrected.' Will there be galley proofs or any proofs for that matter? Bartley wrote there won't be any proofs at all.

Did you get my previous letter concerning Larry's contributions? I did not have your address with me & was not sure of the number (2824).
