Fallowfield Manor Road Penn, Buckinghamshire England.

July 15th, 1976

Dear Mario,

Thank you for your kind letter of June 24th.

I am relieved that you are going back to Montreal. I am sure it is a wise decision. Of course, nobody likes leaving a number of friends behind, an even climate and beautiful landscapes; but all this does not compensate for the drawbacks you describe, not even the friends who are, of course, the greatest loss.

I am looking forward to <u>The Furniture of the World</u>. A beautiful title! I am writing at the moment on the body-mind problem. I am of course an

evolutionist. And I think we have to accept emergent evolution. It seems to me closing one's eyes to deny the existence of mind. Obviously, it belongs to the furniture - though not to the antique furniture - of the world.

Have you seen a book by Denbigh, <u>The Inventive Universe</u>? He quotes you. You will be interested to hear that I have been elected a Fellow of the Royal Society. It is a terrific honour.

All the best, and love to both of you from

both of us,

Yours ever Karl

Fallowiiold Munor Nond Fenn, Nudsinghunahire Snyland.

"hash you for your kind latter of lune 24th.

I am relieved that you are reing back to donkreal. I an ear it is a vise doclator. Of course, holody likes leaving a number of friends bohimi, on even elitate and benetiful limitscapes; but all this does not conjumnele for in 'coursed's rot de ordie, not even the friends who are, of course, the grantest loos.

I an looking forward to The Strukture of the World. A Desuitivit withel

I as writting at the conset on the Lodg-sind trobler. I as of course an avoid the met is a substant of a second second state of a second second state of the second second

If we you seen a book by Danhigh, <u>The Inventive Universe</u>? He quotee you. You will be interested to hear their I have been elected a Fellum of the nexed Society. It is a terrific hencur.

Hi the part, and love to both of you from

Harry Cores
