Dear Mario, dear Marta,

Many thanks for Mario's letter, and our warmest congratulations to Marta's promotion. This is always pleasant, even when it is doubly deserved.

The Self and Its Brain has at least left these shores but it will return, like a bad penny, more than once. Now we are left with the mess and all that has meanwhile accumulated.

It's very interesting that an American publisher might re-issue The Critical Approach. Let's hope his decision will be positive.

Dear Mario, I am afraid I am far from totally recovered, but no doubt this is entirely my own fault. The doctors are such marvellous people.

Much love to both of you

Yours ever Henrie
Karl.

Dear David, best love,

Nancy thanks for Mark's letter, and our warmest
congratulations to Mark's promotion. This is always pleasant, even
when it is doubly delayed.

The Bell and the Green has a first class
a cruise, but it will return, like a bad penny, more than once. How we
are left with the news and all that has meanwhile accumulated.

It's very interesting that an American publisher
might re-appear for "The American Approach". Let's hope his decision will be
positive.

Just think, I am afraid I am far from totally recovered,
but no doubt this is entirely my own fault. The doctors are most marvelous,
always.

Love love to both of you

From your
Helen
